### **R3 STRATEGIS LAUNCHES INTERACTIVE WEBSITE**

NEW YORK, NY – R3 Strategis, LLC, an organization specializing in professional consulting services with a focus on the Wireless (WiFi) industry has launched a new interactive website offering the latest Wireless Broadband news and events.

The new site, [www.r3strategis.com](http://www.r3strategis.com), details industry news and upcoming events that should be attended by organizations, municipal and community leaders, equipment manufacturers and individuals looking to get involved in the WiFi industry as well as acquire the latest information about implementing an advanced broadband network.

In addition, the site provides links to resources within the industry pertaining to WiFi applications, solutions and the latest FCC rules and regulations regarding current and future wireless legislative activities.

“It is imperative that we are able to offer customers and prospective clients the information and resources that enable them to have an advantage in the market place,” said Lorie Jackson, R3 Strategis managing partner. “This is what we built this company on; the principles of helping clients make quality business decisions. There is no better way than by offering information about what’s going on in the industry today.”

R3's website also highlights its team of experts that can help deploy a wireless turnkey solution consisting of data, video (security camera) and voice.

“We have implemented an “Ask Our Experts” button and with one click anyone can have access to our team of experts where they can ask questions about deploying a Wireless Internet network,” Jackson stated. “We have found that education is the key to deploying a successful network.”

Visit us on the web now at [www.r3strategis.com](http://www.r3strategis.com). For more information, e-mail [info@r3strategis.com](mailto:info@r3strategis.com).

R3 Strategis is located at 67 Wall Street, 22<sup>nd</sup> floor, New York, NY 10005 and has been assembled by an industry leading team of experts that have been involved with projects and deployments of WiFi solutions in such venues as NFL Stadiums, National Amusement Parks, Exclusive Luxury Resorts, Municipalities, and Town Center Retail Establishments. R3 was formed to provide its customers an advantage in their respective marketplaces. R3 is an able partner that helps its customers identify, define, and achieve all of their goals and objectives with robust, reliable, and repeatable strategies.
